Office Order No: EDD/60

Dated : 30.11.2023

Sub :- Revised drawing for installation of meter related to Net Metering and Net Billing Scheme

It has come to our notice that confusion has arisen at site levels regarding installation of meters towards providing Net Metering & Net Billing connection as per released Connection Diagram up to contractual demand of 200 KVA.

Besides, it has also been observed that it will be prudent to use Import-Export meter for solar generation meter as well as consumer meter for Net Billing arrangement as reverse flow of power through normal meter may lead to addition of bidirectional Power Flow for which there will be wrong computation of energy consumption. Further, it has been observed that the generation meter should also be Import - Export meter to check summation of Reverse Power Flow which may unduly benefit the consumer.

In view of the facts stated above, revised connection diagrams both for Net Metering and Net Billing named as DIAGRAM-A (Revised) & DIAGRAM - B (Revised) have been prepared and enclosed herewith for necessary guidance of all concerned.

The formula for computation of Gross Electricity Consumption by the consumer (EDL) in respect of Net Billing arrangement has also been revised accordingly.

All concerned are advised to follow the same with immediate effect.

(A. K. Latua)

Director (HR): W.B.S.E.D.C.L
