Office Order No: 240

Dated: 12.05.2022

Subject: Thorough Health Checkup of Electrical Networks by arranging physical survey and taking effective steps to correct the defects to prevent accidents.

The recent incidents of electrical accidents at various parts of the State under the licensed area of WBSEDCL have become a serious cause of concern to the Company management of WBSEDCL, as well as to the Department of Power, GoWB.

It is needless to mention that nothing could be worse than the loss of innocent lives owing to electrical accidents arising out of the Company's installations. Therefore, to preclude this from happening, every possible measure is required to be adopted to identify as well as to rectify the installation's defects, if any.

The common defects in the electrical system, which may pose potential threats are enumerated below, which is required to be identified& addressed:

- Loose sag of the bare conductor in both HT & LT networks.
- Improper Earthing.
- Missing/ageing of HT Cradle guards in crowded places/road crossing.
- Tilted "V" Brackets of HT OH network, potentially cause the stay wire to come into the contact of live line.
- Worn out/improper stay wire of poles.
- Tilted poles causing leaning of HT/LT OH compromising safe vertical distance from the ground.
- Improper grouting of poles causing vulnerability/slanting during inclement weather.
- Non-fixing of LT spacers at places of gatherings.
- Broken/worn out DTR kiosks/Feeder Pillar Box/Junction Box.
- Bare fuse units exposed to the public.
- Improper fuse ratings of DTR/Lines.
- Poor conditions of AB Cable Junction Box.
- Openly charged UG cable susceptible of water logging.
- Any other common vulnerability.

Though time and again such issues have been pointed out to the site authorities for taking preemptive measures to avoid accidents, it is felt that once again that the focus should be given to check the health of electrical system of WBSEDCL to identify such defects, which may lead to such untoward incidents and causing fatalities.

In view of the above, all the Divisional Manager (s)/Regional Manager (s) & Zonal Manager (s) are hereby directed to engage all the agencies engaged for HT/LT mobile maintenance services to conduct a thorough physical survey at every nook and corner of the electrical networks of WBSEDCL

to identify the system defects. This survey work must be completed within 7 [Seven] days of the issuance of the order.

The concerned Division shall keep the records by engaging the DE/AE (Tech)s and Station Manager (s) under its jurisdiction in such a manner, **that corrective action can be taken immediately after obtaining the report and must be completed within 15 [Fifteen] days from the date of issue of this order.**

All concerned must adhere to the guidelines without deviation and all the controlling officers are hereby instructed to follow the instructions scrupulously and transmit the message to downstream, for fruitful action.

A weekly action taken report is to be submitted by each Divisional Manager to the Chief Engineer (Dist) with copy to the concerned Regional Manager & Zonal Manager. The Regional Managers are hereby advised to monitor the rectification work. The Zonal Managers are advised to review the matter in the next Zonal PRT meeting.

Non-compliance of the above, shall attract fixing up of personal responsibility, in the event of any untoward incident due to non-adherence of the above instructions.

(P.P. Mukherjee)
Director (Distribution)
