

WEST BENGAL STATE ELECTRICITY DISTRIBUTION COMPANY LIMITED
(A GOVERNMENT OF WEST BENGAL ENTERPRISE)

Bidyut Bhavan, 7th Floor, Bidhan Nagar, Kolkata-91

Circular No. 007

Dated. 31.03.2014

Sub:- Close Monitoring for Cent percent Meter Reading.

It is noticed with deep concern that proper meter reading covering all the connected consumers at CCC level is not being done in spite of several communications. This is one major factor towards increase in AT&C loss of the Company. Meter reading is the first step in the revenue management process and if it is not done perfectly the entire exercise would be jeopardised. All the line Managers in the hierarchy are therefore specifically advised to monitor the meter reading on daily basis so that the performance of the meter readers and outsourced agencies engaged for the purpose can be improved.

For daily monitoring of the status of meter reading at CCC level the following mechanism has been evolved.

Step 1: The Station Manager in charge of the CCC shall prepare a Meter Reading Calendar in advance for every month mentioning dates for meter reading & concerned zones. He would ask the meter readers to furnish the readings taken by them at the end of each day and compare with the calendar whether the task has been carried out as per calendar. The calendar has to be endorsed to all the meter readers and other persons associated with the job in advance. One such draft calendar is enclosed with this circular.

Step2 : At the end of each week the Station Manager of the CCC will send a report as per enclosed format stating therein the billing Zone wise no. of reading taken during the week and reason for non-compliance if any. The report is to be sent to the concerned Divisional Manager with copy to the Regional Manager.

Step 3 : It will be the duty of the Assistant Manager (HR&A) of the Division to oversee whether reports from all the CCCs under the Region have reached and he will go through such reports and appraise the Divisional Manager whether there is any non-compliance in this regard. Similarly Manager (HR & A) of the Region will apprise the Regional Manager if there is any non-compliance in this regard.

If any non-compliance is observed the Divisional Manager will take up the matter immediately with the concerned Station Manager so that the backlog in meter reading can be completed at the earliest. If any person is found to be irresponsible in this regard, necessary action has to be taken.

Step4 : At the end of each week the Regional Manager will send a report as per enclosed format stating therein the CCC wise no. of reading taken during the week and reason for non-compliance if any. The report is to be sent to the Chief Engineer (Dist.) and Zonal Manager on every Monday. At HQ level the Officials entrusted for monitoring in this regard will go through the reports sent by the Regional Managers and appraise the Chief Engineer (Dist.) if any non-compliance in this regard is observed.

Considering the importance of the issue and gravity of the situation all concerned are hereby instructed to follow the guide lines scrupulously to ensure cent percent proper meter reading. Emphasis is also to be given for supervisory meter readings. This exercise must be started with effect from 1st April, 2014

This has the concurrence of CMD, WBSEDCL.

(R. K. Majumdar)
Director (Distribution)
