OFFICE ORDER NO. 08**Date: 01.06.2017**

Of late, it has been noticed that at the time of raising energy bills related to unauthorized use / theft of electricity the Assessing officer of the company considers 365 days x 24 hours as period of consumption for the purpose of provisional assessment of the period in hours as mentioned in sub-section (5) of Section 126 of the Electricity Act, 2003. The main reason for the same found to be difficulty in ascertaining exact date of commencement of occurrence of unauthorized use/theft of electricity during serving the Provisional bills within the stipulated time of 48 hours of disconnection as per Regulation 5.2 of Supply Code Regulations. Subsequently, during final assessment, consumption unit is reduced often due to change in period of occurrence at a lower side based on corroborative evidential documents submitted by such unauthorized user.

Where unauthorized use is for the purpose other than for which the use of electricity was authorized and/or such unauthorized use is for the premises or areas other than those for which the supply of electricity was authorized, the Provisional bill and Final bill should be raised strictly following the Regulation 5.1 (b) of the Supply Code.

The Assessing officer henceforth shall, send a report with reasons to the Zonal Manager as applicable, in case final assessment bill is reduced by more than 25% of the provisional bill, and in case the reduction is more than 50%, the report shall be sent to the CE, CRM copied to CE (Distribution) and CE (Commercial) .

This order takes immediate effect and has concurrence of the Chairman and Managing Director, WBSEDCL.
