Circular No.: 05/2021

Dated: 18-03-2021

Internal Audit indicates inadequate control and probable risks involved in massive issue of store materials through reservation without issuing any P.O. It is gathered that it has become a common and prevailing practice at Divisional store units to issue store materials through Reservation without segregation of purpose i.e. whether for O&M job or for capital works. In order to minimize associated risks and to streamline the anomalies practiced, the following procedure of issue of store materials should be strictly followed:

- 1) Issue of materials through Reservation should be stopped immediately. Restricted use is to be done on extreme emergency for jobs to be done only departmentally.
- 2) Materials from stores need to be issued against Purchase Orders only, when the work will be carried out by the outside agency.
- 3) The access of doing reservation is restricted to only the Controlling Officers of the units so as to keep better control over issue of materials through reservation.
- 4) The Controlling Officer should review periodically, preferably monthly basis and obtain the consumption report against materials issued through reservation and ensure immediate consumption of such materials within one month of issue and proper accounting thereof.
- 5) The store materials thus issued through reservation must be booked against any Company's employee for implementation of the job.
- 6) At the time of issue of No Demand Certificate, it is to be ensured by controlling officers that no store materials are lying unutilized with the concerned employee.
- 7) At the time of issue of materials, selection of correct movement type (i.e. 241 or 261) will automatically lead to booking in the correct GL code. Any capex related job: movement type 241 should be used along with CWIP code to issue materials which will automatically lead to booking in the GL code 14. Any O&M related job: movement type 261 should be used to issue materials which will lead to booking in GL code 7102004.
- 8) In case of balances appearing under accounting code 7102004, appropriate accounting is to be made in due consultation with Controlling Officer and concerned executing officer by identifying the value that should **flow to 14 code and 74 code based on work order and purchase order and nature of work**. Due confirmation and documentation for the same is to be done prior to booking.

The process has to be followed scrupulously throughout and any deviation will be viewed seriously.
