Office Order

Sub: Incorporation of all newly erected electrical assets in GIS Map of WBSEDCL by conducting GIS survey.

It has been observed that GIS survey of the newly created assets is not being done at site despite sending repeated instructions and finalizing rate contract of GIS survey. If all assets are not captured under GIS database all the exercise done so far will be futile.

In order to make GIS survey of every newly created asset mandatory, necessary software modification has been done and henceforth no erection bill will be released by the concerned DDO until GIS mapping of the assets, so created through any PO related to any erection job is done.

The GIS survey after completion of any erection work or cable laying work has to be done either departmentally or by the erection agency through rate contract, already in place with the help of mobile App Vidyut Manchitra. The business processes in this regard along with responsibility is mentioned hereunder.

Sl. No.	Action Points	Responsibility
1	In the process of creating new Purchase Order (PO) for erection/augmentation works in ERP system, a new line item should be added for GIS survey.	All PO issuing authority.
2	In the process of final bill certification for the PO(s) as mentioned in Sl. No. 1, system generated unique GIS reference should be noted before placing the bill for payment.	Respective Supervising Officer(s).
3	Payment shall be released for a valid unique GIS reference number for the PO(s) as mentioned in Sl. No.1.	Respective Paying authority.

This order will be effective on and from 1st September 2023 across WBSEDCL. The SOP excludes the works of non-electrical network like civil works etc.

The above-mentioned SOP shall be incorporated in GIS & ERP system of WBSEDCL accordingly.
