OFFICE ORDER

No. 54

Date: 11.8.25

In accordance with the recommendations made by the Committee constituted vide Office Order No. 51 dated 30.06.2025, and based on the discussions held in the meeting dated 11.07.2025 regarding the review of the methodology for calculating the reserve price of Power Transformers (above 01 MVA), the following decisions are hereby implemented with immediate effect:

1. Weight calculation Process (Adopted from prevailing practice):

A. Name Plate Data for calculation	
a. Total Weight	b. Wt. Of Core & Wdg.
c. Wt. Of oil	
B. Derived Data	
e. Wt. Of tank & others= a-(b+c)	f. Wt. Of channels, tie rod & others=10% of (b)
g. Wt. Of Coil (Winding) = (b- f)/3	h. Wt. Of Copper in Wdg = 90%of (g)
i. Wt. Of Core(CRGO) =2x (g)	
C. Material wise Break Up:-	
k. Total Iron /Steel= (e)+(f)	l. Total weight of copper = (h)
m. Total weight of CRGO= (i)	

2. Adoption of Scrap Price Source : The price of scrap copper and scrap steel shall be taken from the latest gazette notifications of MSTC instead of the circulars issued by the C.E. (P&C).

3. Method of Deriving Scrap CRGO Price: In case scrap CRGO price is not directly available from the MSTC website, it shall be derived using the following formula:

Scrap CRGO Price = [Latest CRGO Price published by IEEMA] × 0.165

- Additionally, the derived price must be cross-verified with the current price available at <https://www.exportersindia.com> under the category: **CRGO Transformer Lamination Core Scrap for Industrial.**
- The higher value between the derived price and the website-listed price shall be considered for reserve price calculation.

3. Fallback Provision

- If the price of CRGO scrap is **not available** on [exportersindia.com], the **multiplication factor 0.165** shall be applied on the IEEMA CRGO price without exception.

4. Recalculation of Reserve Price

The reserve prices already calculated for PTRs that **remain unsold** till date shall be **revised** using the above methodology to enable smoother e-auction processes.

This order has been issued with approval of the CMD, WBSEDCL, Dated: 06.08.2025
