

West Bengal State Electricity Distribution Company Limited
(A West Bengal Government Enterprise)

CIN:-U40109WB2007SGC113473

Website:-www.wbsedcl.in

Office Order: 07/2018

Date: 10.09.2018

With a view to minimize the number of electrical accidents in our system while doing maintenance work by our machinery, it has been decided that in addition to the list of tools and tackles as mentioned in the previous Circular O.O.-16 dt. 15/5/18 of this Office, at least two numbers of tester (Specification: Tip size- 5mm steel, Shaft diameter -18mm, Height- 200mm, capability upto 440 volt, with plastic handle) should be provided to each LT Mobile Van of Maintenance Agency.

The respective Divisional Managers are hereby asked to ensure to provide the same @ 2 Nos to each LT Mobile Van of each CCC under their jurisdiction. This instrument must be provided to each Mobile Van by 05.10.2018 without fail to provide the basic safety warning tool to all workers who physically come in contact with the LT conductors while doing our own maintenance work so that they can at least have the scope to verify the condition of the conductor before touching it physically. Since, it is a very low cost material, no time is allowed for providing the same considering its usefulness in case of any maintenance work by the Contractors' Workers of LT Mobile Vans.

(Sujay Sarkar)
Director(HR)
