

West Bengal State Electricity Distribution Company Limited

(A Govt. of West Bengal Enterprise)

Vidyut Bhavan, Bidhannagar : Kolkata – 700 091

CIN: U40109WB2007SGC113473

CIRCULAR 03/2019 DATE: 02-08-2019

The Company has issued various Circulars and Office Orders from time to time laying emphasis on completion of different employee oriented activities in SAP-ERP system on timely manner, preferably on a real-time basis across all the units with the goal to achieve a standardized mode of operation all throughout the Company together with establishing a robust platform for different activities under HCM Module especially in the context of payroll management.

But, even after lapse of a considerable period of time since implementation of the payroll module w.e.f 1st March, 2016 through SAP-ERP system, it has been observed that some irregularities have been detected from different ends, mainly attributing to role authorization, which were reported to have a negative impact on the payroll function. In the existing system although all the activities are being performed by different users as per their role allotment, but in view of detected shortcomings it has been felt necessary to review and streamline the role authorization of the users performing different activities across all domains.

Accordingly, it has been decided that there shall be re-allotment of authorization (under HCM Module) amongst the users across Corporate Offices and all the site offices based upon the roles they actually perform. As per the new matrix structure, specific roles have been assigned at different levels throughout the organization on a three tier level:

- Controlling Officer Role- A comprehensive role structure comprising of roles of DDO/HR wing. Controlling Officer at Corporate Offices (housed at Vidyut Bhavan), Zonal Manager, Regional Manager, Divisional Manager, Project Manager—Distribution/Hydel wings, etc. [functioning as Checker Role for the entire unit]
- Checker Role- HR head of an establishment/ DDO of a unit is assigned with domain-specific authorization according to their functionality viz. HR & A Officer, F & A Officer (DDO), etc.
- Maker Role- Personnel entrusted with roles with restricted authorization & executing certain routine activities -- shall be responsible to organize, prepare & execute the activities on preliminary basis as the first stage/interface of data recording into the system. Asstt. Engineer (Tech), Station Manager, personnel authorized to perform transactions in the system (across different ranks viz. Jr. Manager/Hd. Asstt./Sr. Asstt./OE/Asstt., etc.)

The roles have been framed with the 'Maker-Checker' concept where the tasks completed by a Maker (as per their authorization) will flow to a Checker (higher authority) where the final verification & updation of records shall be finally made and submitted in the SAP-ERP system for consideration towards final updation of the employee service related records in the HR/Finance database and also for monthly payroll run. The authorization matrix will function based on Cost Centre restriction i.e. activities of a particular unit will be possible for the employees belonging to its jurisdiction only, but not for any other unit. A detailed list of authorization is available in the web portal of the Company for ready reference. The authorization has been

primarily fixed based upon the roles actually performed by the user, which however may be modified or altered subsequently, if required during the course of working, based upon assessment of the situation and upon need-based requirement only.

Under this arrangement all the authorized users of the system are required to discharge their responsibilities in a time-bound manner for real-time updation of records in the ERP database thereby preventing unnecessary work-related hazards, avoiding duplication of activities & handling employee grievances.

All concerned are hereby advised to strictly abide by the aforestated guidelines.
