(A Government of West Bengal Enterprise)

(Distribution Head Quarter)

Bidyut Bhavan, 1st Floor, "D" Block Bidhannagar, Kolkata-700091

Circular : 09

Date-02/08/2021

Centralize consumer complaint docketing system is an age old practice of WBSEDCL. IVRS mechanism has been launched as added features for the last couple of years for implementation of hassle free docketing procedure with many automated call docketing activities ensuring less human intervention in this system driven entire complaint management mechanism. Consumers can easily docket their "No power" related complaint by giving missed call from their registered mobile numbers. Now as an obvious reason open dockets are required to be closed in the centralized system on regular basis either through the CFO , posted at various CCC units or by sending SMS from the registered mobile numbers of the LT mobile van , once docketed calls are successfully attended and restored by the LT Mobile of the respective CCCs.

In course of review of the call docketing status, it is surprised to observe that huge numbers of docketed call are lying opened for a long span of time even after attending and successful restoration of those docketed calls. Such huge numbers of open call in the system is carrying bad notion about the surveillance activity of consumer complaint mechanism from the site level and negatively impact over of their honest and continuous endeavor i.r.o quick redressal of consumer's complaint.

In view of the above all the Station Manager's are hereby advised as follows:

- Make a close vigil over pending call status in the CRM package on day to day basis and take necessary action for closure of the pending call in time and suitably restrict any sort of accumulation of open call in the system.
- Arrange for sensitization programme on regular basis among the deployed CFO of the CCC and the LT Mobile Van Supervisor to make them effective i.r.o closure of open call immediately after attending the call successfully.

ZCC in-charge are also hereby advised to monitor the call docket status in the CRM package and inform respective Divisional Manager and Station Manager on regular basis regarding pending call lying in the system for more than two days for suitable disposal of the same.

Strict adherence of the above is desired.

(S.Mukherjee)

Chief Engineer (Distribution)
